	12117	1	Cassette PD 1550, ML Combi Check in

The Masterlift 2.35 Combi Check-in PD is optimally suited for **quick and easy vehicle lifting**.

The platform is constructed of very strong and rigid **solid steel** that offers a **high degree of stability**. They are zinc coated and painted. Looks great and works great! Various lengths of repair platforms, which come with **xy-function in the premium version as standard**, make the Masterlift 2.35 NxT the perfect helper in your workshop.

Four **strong 123 mm diameter cylinders** are also designed for long-lasting functionality and further round off the high-quality level, which ensures **low maintenance requirements**.

Even in the event of a power blackout, the lift can still be lowered without any problems thanks to the pneumatic emergency lowering system.

The Masterlift Combi Check-in KA 1550 is perfectly completed by a **control system that is both visually and technically convincing**.
