

# Maestro 2.35 NxT F VW

Electro-mechanical 2-post lift 3.5 t

Order no.	Item no.	#	Part of the approval according to order no. 20012138:
20012138	98470	1	Maestro 2.35 NxT F DT/ST 400/3/50 – 4350/5050mm- Ø50 pick-up, with 4 double telescopic lifting pads 16007
	777958	1	Portal set (3990-4350 mm)
	777907	1	Power pack for Maestro, 1 x Schuko plug (230 V), 1 x compressed air quick coupling 1/4"
	11104	1	Set of 2 magnetic tool trays

The 2-post lifts of the Maestro 2.35 NxT series impress with their premium construction.

They come with **extremely stable and welded columns**.

Smooth running behaviour is ensured by the **roller-bearing carriage**.

The **cold-rolled spindle** guarantees a **particularly long service life**.

The columns are asymmetrically positioned, i. e. vehicles can be positioned far to the rear, which ensures an **optimal door opening angle**.

Of course, the Maestro 35 also has a door stop protection to prevent damage during entry and exit.

The **swivel arms are extremely flat** and thus ensure a low minimum height. The **internal arm locking system** with strong 360° interlocking protects against moisture and dirt.

### Standard colour:

Arms: RAL 7040

Posts: RAL 7012

### Variants:

Available for different voltages

F = flex pad

### Optional extras:

Available with different portal heights

LED lighting set

Extra control unit for second column
