

Maestro 35 F VW

Electro-mechanical 2-post lift 3.5 t

Order no.	Item no.	#	Part of the approval according to order no. 20012137:
20012137	89501	1	Maestro 35 F - DT/ST, 400/3/50 - 4350/5050 mm - Ø40
	776526	1	Portal set for Maestro 2.30/2.32/2.35/30/32/35, 4350 mm

The 2-post lifts of the Maestro 35 series impress with their premium construction.

They come with **extremely stable and welded columns**.

Smooth running behaviour is ensured by the **roller-bearing carriage**.

The **cold-rolled spindle** guarantees a **particularly long service life**.

The columns are asymmetrically positioned, i. e. vehicles can be positioned far to the rear, which ensures an **optimal door opening angle**.

Of course, the Maestro 35 also has a door stop protection to prevent damage during entry and exit.

The **swivel arms are extremely flat** and thus ensure a low minimum height. The **internal arm locking system** with strong 360° interlocking protects against moisture and dirt.

Standard colour:

Arms: RAL 7040

Posts: RAL 7012

Variants:

Available for different voltages

F = flex pad

Optional extras:

Available with different portal heights

LED lighting set

Energy set with compressed air and socket-outlet
